**Subject:** Microsoft Settlement

I'm not sure if I've sent you email before or not but in either case...

Please settle this lawsuit as quickly as possible. It has been a total waste from the beginning. Microsoft never harmed consumers. The case was a brilliant move but their competitors who were, and continue to be, unable to compete in the open market. Microsoft is being punished for being successful. The case has damaged the economy and the entrepreneurial spirit in the hi-tech industry. The CASE and not Microsoft has damaged consumers.

Thanks,
